## Love and Care Child Development Center

Love and Care Child Development Center, Inc. (Love and Care), has been serving District of Columbia families for almost 20 years. Serving infants and toddlers across three locations in Ward 4, their degreed, dedicated, highly trained and diverse staff enjoy enhancing the lives of their children and families. With nurturing environments, their centers are the perfect place for children to play, laugh, and discover. Love and Care is a recipient of the Infant/Toddler Expansion Grant which helped them expand into a third location, located near Rhode Island Avenue's metro center.

Under the leadership of Fontella Pankey, Love and Care is National Association for the Education of Young Children (NAEYC) accredited and is currently a partner in the Quality Improvement Network (QIN). Being a part of the QIN has helped Love and Care further enhance the quality of care and has provided access to resources that will strengthen the physical, social, emotional and intellectual development of young children.
